faigle straps

Safe. Innovative. Smart

moving forward

Our hanging straps – tried and trusted for decades

faigle hanging straps have been improving the passenger experience on underground trains, trams, city buses, airport shuttles and mountain railways for over 40 years. The company is an innovative and reliable development partner to major transport operators and vehicle manufacturers around the world.

The unique combination of design and technology is what makes faigle straps so popular with international customers. Our long-standing partners include MTR, Siemens, Bombardier, Evobus and Wiener Linien.

Safety first for standing passengers

Ergonomic plastic hanging straps featuring carefully selected materials provide added safety and comfort for passengers when a vehicle brakes or accelerates, turns corners, crosses railway points or in case of an emergency stop. Our product portfolio includes a range of different colours, designs and looks that are tailored perfectly to our customers' requirements.

New fit-outs or upgrades

With faigle straps, new fit-outs and upgrades featuring eye-catching designs can be completed quickly and easily.

faigle straps – safe.innovative.smart

Benefits at a glance

Safety

- Reliable tensile strength (min. 1,500N)
- Compliant with fire safety regulations worldwide
